Friday, June 27, 2025 / 10.00 a.m. - 2.00 p.m.

10.00 a.m. - 2.00 p.m. / Friday, June 27, 2025

“ANBIIG” meets Europe - professional imaging training

Accurate diagnostic imaging and early detection of gastrointestinal (GI) cancers remain significant challenges in endoscopy. Studies indicate that approximately 11% of newly diagnosed upper GI cancers were missed during previous endoscopic examinations.

This highlights the critical need to improve the quality of diagnostic procedures, not only in colonoscopy but also in upper GI endoscopy. To address this issue, diagnostic endoscopy must be performed with greater precision and accuracy.

The Asian Novel Bio-Imaging and Intervention Group (ANBIG) is dedicated to enhancing the quality of diagnostic endoscopy through targeted education and training initiatives, aiming to reduce diagnostic errors and improve patient outcomes.

To provide high-quality training opportunities in the Western world, we have exclusively established the “ANBIIG Professional Training Course” as part of our EndoSwiss 2025 meeting.

Here's how to participate:

1. **Register** on our website.
2. Complete the **pre-test**, which will be sent to you after registration.
3. Attend the **training session** (online or onsite, as per your preference).
4. Take the **post-test** after the session.

Upon successful completion of both the pre-test and post-test, you will receive a certification as a recognition of your achievement by ANBIIG team.

Secure your spot and begin the process by registering now.

Course directors:

Yasushi Sano, Philip WY Chiu, Hon Chi Yip, Jacques Bergman, Ewerton Marques Maggio

Organizers:

Stefan Seewald, Giorgi Tvaradze, Stefan Groth

Pretest (sent to the participants including teaching material after registration online, requirement for participation)

10.00 - 10.05 a.m. Welcome & Session Overview

10.05 - 10.25 a.m. **Proper endoscopic imaging and classification of early squamous cell cancer**
Philip WY Chiu

10.25 - 10.40 a.m. **Case presentation & discussion**

10.40 - 11.00 a.m. **Early Barrett's cancer - challenges in detection and delineation**
Jacques Bergman

11.00 - 11.15 a.m. **Case presentation & discussion**

11.15 - 11.40 a.m. **Definition of “stomach at risk” and diagnosis of early gastric cancer**
Hon Chi Yip

11.40 - 11.55 a.m. **Case presentation & discussion**

11.55 - 12.30 p.m. Lunch Break

12.30 - 12.50 p.m. **How to perform a proper upper GI endoscopy?**
Live demonstration

12.50 - 1.15 p.m. **Characterization of colonic early neoplasia by JNET and Kudo classification**
Yasushi Sano

1.15 - 1.30 p.m. **Case presentation & discussion**

1.30 - 2.00 p.m. **Post Test**
