It is my great pleasure to welcome you to The 2nd JGES International, held on September 11–12, 2026, at the Toshi Center Hotel Tokyo. Following the success of The 1st JGES International, we are delighted to welcome colleagues from Japan and around the world once again and to provide an opportunity to share the latest advances in gastrointestinal endoscopy and foster international exchange.

Our program features a wide variety of sessions, including Symposia, the Young Investigator Awards (YIA), the JGES-ESGE Joint Symposium, the WEGECA Assembly, co-sponsored sessions, the Live Demonstration, the Hands-on Seminar, and general abstract sessions, including video forums. We hope all these sessions will inspire lively discussion and the exchange of new ideas and techniques.

We would also like to express our sincere gratitude to all of our co-sponsoring companies for their generous support and valuable contributions to this Congress.

The JGES International Reception (Get-together) will also be held on September 11 at the Toshi Center Hotel Tokyo. We warmly invite you to join us and enjoy an evening of fellowship with colleagues from around the world.

We hope that all participants will actively engage in the program, share their knowledge and experience, and enjoy meaningful interactions and friendships with colleagues from around the world.

Thank you very much for your participation and continued support.

We look forward to sharing an inspiring, harmonious, and memorable Congress with you all.
