

Thank you Professor Inoue for your excellent demonstration.

- Taiwan

Thank you very much for exciting demonstration. Sub serosal injection sounds extremely interesting.

- U.K.

Thank you very much.

- Taiwan

Thank you very much!

- Russia

Thank you very much for the excellent presentation!!!

- Georgia

congratulations! to prof Inoue and Seewald fantastic presentation

I would like to see this webinar again. thank you very much.

- Spain

Thank you very much Sensei Inoue!!! Hello from Ukraine!!! Very nice case and presentation!!!

I very hope I will be glad to see you again!!!

- Ukraine

Thank you all. Very fascinating work

- Greece

Thanks for Professor Inoue team !! excellent!

- Taiwan

very good session

- Germany

Thank you very much for sharing your innovative endoscopic techniques as always. Using snare with endoclips for traction is very helpful for deep dissection. The attached images are ESSD for gastric GIST at fundus near cardia. I need endoclips at two pivots, one upon the

lesion and another at opposite site of fundus, to pull the lesion inside lumen. I believe ESSD is promising for management of gastric SET with malignant potential. Looking forward to the next webinar on G-POEM.

- Taiwan

Thank you sir for your kind reply and also for this excellent educational webinar. I always try to participate in all available webinars/conference to enrich my knowledge in surgical endoscopy.

- Bangladesh

Many thanks for you advice!!! I learn from you, and try repeat you technics and my department!!! Thank you for add me and see you next webinar!!! Arigato Sensei Haru!!!!

- Ukraine

Thank you very much for your reply.

Your presentation is so impressive.

I learned a lot from the meeting.

- Thailand

Very interesting. Congratulations and thank you for sharing.

- Spain

Really interesting presentation, thanks

- Ukraine

Interesting lecture. Congratulations to the speakers.

- Philippines

great advance great clear talks !!

- Israel

Thank you for your great talk!

- Japan

Thanks for the great presentation.

- Taiwan

All presentations were very interesting.

- Spain

Thank you very much for the excellent presentation and interesting way of treatment

- Russia

Thanks for all presentation.

- Vietnam

Thank you for excellent presentation! Now I more and more understands endoscopy approach for treatment patients with GERD.

- Russia

Thank you for explaining this novel functional endoscopic diagnosis.

- Israel

I have learned a lot and wish to try EPSIS in Hong Kong too.

- Hong Kong
- 

Fantastic presentation of a new area in endoscopy. Congratulations.

- Switzerland
